

**Conclusion**

For all of the above reasons, applicant submits that the specification and claims are now in proper form and that the claims all define patentability over the prior art. Therefore they submit that this application is now in condition for allowance, which action they respectfully solicit.

**Conditional Request for Constructive Assistance**

Applicants have amended the specification and claims of this application so that they are proper, definite, and define novel structure which is also unobvious. If, for any reason, this application is not believed to be in full condition for allowance, the applicant respectfully requests the constructive assistance and suggestions of the Examiner pursuant to M.P.E. §2173.02 and § 707.07(j) in order that the undersigned can place this application in allowable condition as soon as possible and without further need for proceedings.

Very Respectfully:
